RE: Issuance of Coverage under the Aquatic Mosquito Control General Permit

Dear Trevor Schneider:

The Washington State Department of Ecology (Ecology) received your application for coverage under the Aquatic Mosquito Control General Permit. Ecology is issuing you coverage under this permit as of September 3, 2019. **Retain this letter with your permit documents. It is part of the official record of permit coverage.**

A copy of the Aquatic Mosquito Control General Permit, forms, and supporting documents may be viewed and downloaded at <https://ecology.wa.gov/mosquitopermit>.

Please take time to read the entire permit. It contains the requirements you must follow to maintain compliance. Contact Chelsea Morris (email and phone number listed below) if you have questions about the permit.

Areas of Restricted Larvicide and Adulticide Use

Washington Department of Fish and Wildlife (WDFW) identified areas occupied by at least one of six vulnerable species and requested that mosquito control deemed necessary in these areas be restricted to the use of Bacillus based products. Maps of the restricted areas are available at <https://ecology.wa.gov/mosquitopermit>.

If you wish to apply pesticides other than Bacillus-based products in a restricted area, you must comply with the requirements in permit special condition S4.C.

Permit Fees

State law (RCW 90.48.465) requires that all Permittees pay an annual permit fee based upon the State fiscal year. The State fiscal year begins each year on July 1, and ends June 30 the following year. Ecology mails permit fee bills to all Permittees annually. Permittees that have permit coverage on July 1 will receive a permit fee bill. For more information or questions on the permit fee process, contact the Water Quality Program Permit Fee Administrator at (360) 407-6425.

Appeal

The issuance of permit coverage may be appealed within 30 days of receiving this letter as detailed in the Appeal of General Permit Coverage focus sheet, which may be viewed and downloaded at <https://fortress.wa.gov/ecy/publications/documents/1710007.pdf>.

If You Have Questions

If, after reviewing your permit, you have questions or need more information about the Aquatic Mosquito Control General permit requirements, please contact Chelsea Morris at (360) 407-6563 or chelsea.morris@ecy.wa.gov.

Sincerely,

for

Vincent McGowan, P.E., Manager
