**RE: Construction Stormwater General Permit Coverage Revocation
Wellington – Lennar, WAR308267**

Dear William Salvesen:

The above referenced site received coverage under the Construction Stormwater General Permit (CSWGP) on August 12, 2019. It has come to our attention that public notice requirements per the CSWGP and Washington Administrative Code (WAC) were not met.

Pursuant to Chapter 43.21B of the RCW, Chapter 173-226 WAC, and General Condition G5 of the CSWGP, Ecology may revoke coverage under the permit. Due to the violations listed above, Ecology will revoke permit coverage for WAR308267 on October 4, 2019, per G5.B and G5.G of the CSWGP.

Please note that Wellington-Lennar has the option to reapply for permit coverage by submitting a complete and accurate Notice Of Intent (NOI) prior to running a public notice, per section S2.B of the CSWGP and WAC 173-226-130(5).

Per WAC 173-226-240(6), Wellington Lennar has 30 (thirty) days to respond to this notification for further information regarding revocation of the permit. Ecology appreciates your prompt attention to this matter. If you have questions about this decision, please contact Mindi English of Ecology's Water Quality Program Headquarters in Lacey at mindi.english@ecy.wa.gov, or (360) 407-6467.

Sincerely,

Vincent McGowan, P.E., Manager
Program Development Services Section
Water Quality Program
