**RE: Conditional No Exposure Exemption – Granted**  
**CNE Number 308256**

Dear Allen Breaux:

You applied for a Conditional No Exposure (CNE) Exemption on June 6, 2019.

On September 6, 2019, a Washington State Department of Ecology (Ecology) inspector determined that your site is eligible for CNE Exemption. Your CNE Exemption has been granted starting on the above inspection date.

Your site was covered under the Industrial Stormwater General Permit, WAR308256. Your permit coverage has been terminated effective September 6, 2019.

If there is a change at the facility that results in the exposure of industrial activities or materials to stormwater, you are required to immediately apply online and obtain general permit coverage. (Industrial Stormwater General Permit Special Condition S1.F.1.d). If you need to apply for a permit, visit <https://ecology.wa.gov/Regulations-Permits/Guidance-technical-assistance/Water-quality-permits-guidance/WQWebPortal-guidance> for application instructions.

Ecology may also conduct a site visit in the future to verify that stormwater is not exposed to pollutants at your site.

You have a right to appeal Conditional No Exposure Exemption under the general permit to the Pollution Control Hearing Board (PCHB). Appeals must be filed within 30 days of the date of receipt of this letter. Any appeal is limited to the general permit's applicability or non-applicability to a specific discharger. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2). For more information regarding your right to appeal, go to <https://fortress.wa.gov/ecy/publications/SummaryPages/1710007.html> to view Ecology's Focus Sheet: *Appeal of General Permit Coverage*.
