**RE: You have not completed the reapplication process for your Industrial Stormwater General Permit, number WAR007765 – Final Notice**

Dear Randy Lilburn:

Your current Industrial Stormwater General Permit coverage (ISGP), issued by the Washington State Department of Ecology (Ecology), expires December 31, 2019. You were sent two reminders (April 1 and June 14, 2019) to reapply for continued ISGP coverage beginning January 1, 2020. You were required to submit your reapplication by July 3, 2019. Ecology records show that you have not reapplied for permit coverage. **Please submit your reapplication immediately.**

If you do not reapply, your current permit coverage will be terminated on December 31, 2019. After this date, you will be discharging industrial stormwater without coverage, which is a violation of the Federal Clean Water Act and Chapter 90.48 Revised Code of Washington (RCW) – the State of Washington Pollution Control Act. Failure to maintain permit coverage after January 1, 2020, may result in a penalty of up to \$10,000 per day for each violation of discharging industrial stormwater without a permit.

**To Reapply Online**

Ecology uses SecureAccess Washington (SAW) to maintain security of your data. You can use your existing SAW account or create one by going to <https://secureaccess.wa.gov/>. Detailed instructions can be found at <https://ecology.wa.gov/webportalhelp>.
