

**NOTICE: ANNOUNCEMENT OF AVAILABILITY OF DRAFT WASTEWATER PERMIT**

**Permit No.:** WA0022403

**Facility:** City of Snoqualmie  
Water Reclamation Facility  
38190 SE Stearns Road  
Snoqualmie, King County

The City of Snoqualmie has reapplied for a National Pollutant Discharge Elimination System (NPDES) permit in accordance with the provisions of Chapter 90.48 Revised Code of Washington (RCW), Chapter 173-220 Washington Administrative Code (WAC), and the Federal Clean Water Act.

The Snoqualmie Water Reclamation Facility currently operates an oxidation ditch, sand filtration secondary treatment plant designed to handle a maximum month flow of 2.15 MGD. The wastewater, following treatment, must meet the requirements of the Washington State Water Pollution Control Act and applicable regulations for a permit to be issued. Following evaluation of the application and other available information, a draft permit has been developed which would allow the discharge of treated domestic wastewater into the Snoqualmie River.

A tentative determination has been made on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.

**PUBLIC COMMENT AND INFORMATION**
