THIS EMAIL ORIGINATED FROM OUTSIDE THE WASHINGTON STATE EMAIL SYSTEM - Take caution not to open attachments or links unless you know the sender AND were expecting the attachment or the link

We just got done cleaning our lagoon for this year and I am attaching a couple of pictures.

Our liner looks in good shape.

Thanks,

Fred Lopez

Ecology is holding a public comment period on the permit modification to the [Fresh Fruit Packing Industry General Permit](#) from **March 6 to April 22, 2019**. Please note you will or may have received a packet of information with a comment period ending date of April 8, 2019; **the comment period ending date has been extended to April 22, 2019**. All avenues to submit comments have been extended to April 22, 2019 as well.

We propose to authorize the use of additional products within the fresh fruit packing industry in Washington State.

Products include:

- One post-harvest fungicide for stone and pome fruits
- Two wastewater treatment coagulants for treating wastewater from the fresh fruit packing industry prior to discharge under the permit

To view the draft permit and associated documents please visit the [Fresh Fruit Packing General Permit Webpage](#).

Workshop and Hearing Information

We are also holding a [public workshop and hearing](#) about the permit modifications. The workshop will explain the proposed modifications and answer questions. During the hearing, people may give oral testimony and written comments on the proposed modifications to the permit. Written comments will receive the same consideration as oral testimony.

Only the portions of the permit revised during this permit modification are available for comment.

Next steps: After the close of the comment period we will review and respond to comments. We will send our response to comments to anyone who provided contact information and include it in the final permit documents. **The proposed effective date of the modified permit is July 1, 2019.**
