Re: Application for Renewal of State Wastewater Discharge Permit Number ST 6049

Dear Larry Bale:

Washington's Water Pollution Control Law, Chapter 90.48 Revised Code of Washington (RCW), requires that your company submit a new permit application prior to the expiration of your existing wastewater discharge permit.

Your State Waste Discharge Permit No. ST 6049 **expired** on March 31, 2017. We are, therefore, enclosing a new waste discharge permit application. An electronic copy of the application may be downloaded by going to the Department of Ecology Water Quality Permits page at:
<https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-quality-permits/Water-Quality-individual-permits#forms>.

Ecology permit manager for your facility is Hiro Kusakabe. If there have been significant changes to the facility or to the character of the wastewater treated (for example, a new industry is discharging to the sewer system), you may need to fill in additional sections. Review all the questions to determine if applicable areas apply. Please submit any additional information that may help Ecology determine the impact of your discharge upon the POTW.

The completed application is to be mailed by **August 21, 2020**, to:

Morgan Dorner
Industrial Permit Administrator
Southwest Regional Office
Department of Ecology
P.O. Box 47775
Olympia, WA 98504-7775

If you file an incomplete or inaccurate submittal, we may proceed with one or more of the following actions:

- Return the application form for completion or additional information.

Larry Bale

Page 2

- Proceed to issue a permit with limited information. Permits issued under such circumstances typically have more stringent limits, and more monitoring and reporting because of the uncertainty of the discharge situation.
- Issue an enforcement order requiring completion of the permit application. A penalty may be issued if wastewater discharge is occurring without an appropriate permit.

Ecology expects a permit application to be complete and accurate upon submittal. If there are any questions about the application or the permitting process, please contact Hiro Kusakabe at hiro.kusakabe@ecy.wa.gov or call 360-407-6286. If needed, a meeting can be arranged.

Sincerely,

Carey Cholski
