Re: Application for Renewal of National Pollutant Discharge Elimination System (NPDES)
Wastewater Discharge Permit Number WA0040738, Western Wood Preserving Co

Dear Janis Kristiansen:

Chapter 173-220 of the Washington Administrative Code (WAC) requires a Permittee to file an application for replacement.

Your NPDES Waste Discharge Permit No. WA0040738 expired on August 4, 2015. The application that was submitted on February 3, 2014 is over five years old. An electronic copy of the application may be downloaded by going to the Environmental Protection Agency (EPA) website <https://www.epa.gov/npdes/npdes-applications-and-forms>. Please complete the application and return it no later than **December 11, 2020** to:

Morgan Dörner
Permit Administrator
Department of Ecology
Southwest Regional Office
PO Box 47775
Olympia, WA 98504-7775

Ecology permit manager for your facility is John Diamant. Review all the questions to determine if applicable areas apply. Please submit any additional information that may help Ecology determine the impact of your discharge to groundwater.

If you file an incomplete or inaccurate submittal, we may proceed with one or more of the following actions:

- Return the application form for completion or additional information.
- Proceed to issue a permit with limited information. Permits issued under such circumstances typically have more stringent limits, and more monitoring and reporting because of the uncertainty of the discharge situation.

Janis Kristiansen

Page 2

- Issue an enforcement order requiring completion of the permit application. A penalty may be issued if wastewater discharge is occurring without an appropriate permit.

Ecology expects a permit application to be complete and accurate upon submittal. If there are any questions about the application or the permitting process, please call John Diamant at 360-407-6289 or by e-mail at John.Diamant@ecy.wa.gov. If needed, a meeting can be arranged.

Sincerely,

A handwritten signature in black ink, appearing to read 'MD', with a long horizontal line extending to the left.

Morgan Dorner
Industrial Permit Coordinator
