Re: Review of Draft Fact Sheet and Permit for Permit No. ST0005562 for the Community of Dryden

Dear Ms. Huwe:

We have completed our review of the subject documents, and offer the following comments for your consideration:

Permit

1. Permit Section S10 (Page 28) identifies a due date 5 years (minus one day) for compliance with the final effluent limits. Please revise the corresponding section in the Summary of Permit Report Submittals (currently identified at 4.5 years) to 5 years (minus one day) for consistency.

Fact Sheet

1. The second paragraph on page 2 accurately describes the District's past facility planning efforts, and that the pipeline between Peshastin and Dryden is no longer an option. The second-to-last paragraph on page 21 indicates the pipeline is on hold due to funding. Please replace the paragraph on page 21 with the paragraph from page 2 for consistency.
2. Page 31, second paragraph – the date of Public Notice was April 3, 2019.

Thank you for the opportunity to review these draft documents. Please call me at (509) 661-4131 if you have any questions or need additional information.

Sincerely,

Ron Slabaugh, P.E.
Water & Wastewater Manager
