RE: Ecology Permit Manager Change for Water Quality Permit ST0005335

Dear Adam Konopasek:

This letter is to inform you that Llyn Doremus has been assigned as the interim permit manager for Water Quality permit ST0005335. Sean Thompson, who served as the permit manager for Tyson Fresh Meats, has left the program. We are assigning your facility an interim permit manager until a new permit manager is hired and assigned.

Due to a current state-wide hiring freeze related to COVID-19 budget impacts, hiring a permit manager for your facility may take some time. Until then, the interim permit manager is assigned to assist until Ecology assigns a permanent replacement.

There are no other changes associated with your permit. Llyn may contact you with questions as she gets familiar with the wastewater treatment operations at your facility.

Please contact Llyn Doremus at (509) 703-2830 or by email at ldor461@ecy.wa.gov or me at (509) 481-1821 if you have questions about your permit or the change in permit management.

Sincerely,

A handwritten signature in black ink, appearing to read "Art Jenkins", is written over a light blue horizontal line.

Art Jenkins, PE
Permit Unit Supervisor
Water Quality Program
Eastern Regional Office
