Re: National Pollutant Discharge Elimination System (NPDES) Permit No. WA0037061, LOTT Budd Inlet
Water Reclamation Facility

Dear Terri Prather:

Your June 2020 Discharge Monitoring Report (DMR) indicates that your discharge did not comply with your permit requirements.

<u>Monitoring Date</u>	<u>Monitoring Parameter</u>	<u>Sample Measurement</u>	<u>Permit Requirement</u>
6/29/20	Total Coliforms	200.5 #/100 mL	23 #/100 mL

Failures to meet permit limits are violations of your NPDES permit. You should be aware that violations are subject to enforcement action including administrative orders to correct the problem and/or civil penalties, in accordance with Chapter 173-220-230 of the Washington Administrative Code (WAC).

If your violations are chronic, you should contact us and tell us what steps you are taking to bring your facility back into compliance. Noncompliance reporting is a condition of your permit.

If you have any questions regarding this matter (or if our information is incorrect), please contact your facility manager, David Dougherty, at david.dougherty@ecy.wa.gov, or by phone at 360-407-6278.

If you need technical assistance, please contact your facility manager or call our technical assistance specialist Carl Jones by e-mail at carl.jones@ecy.wa.gov or by phone at 360-407-6431.

Sincerely,

Carey Cholski
