Re: City of Spokane Industrial Pretreatment Program

Mr. Kubsad:

Attached is the 2020 City of Spokane Annual Pretreatment Report. This report is submitted in compliance with NPDES Permit Number WA-002447-3, Section 6.A.5.

The City of Spokane Industrial Pretreatment Program Elements were last approved in 2016. Since then, much has changed. In response to these changes, we also submit our updated Program Elements for your approval. Attached you will find a summary that outlines the modifications, including changes to Spokane Municipal Code 13.03A.

Substantial modifications to the Elements, as defined in 40 CFR Part 403.18, include updated control mechanisms. These items below are also indicated in red font in the Summary attached:

- 1.) Wastewater Hauler General Permit – Volume 2, Tab 5b;
- 2.) Regional Best Management Practices – Volume 2, Tab 10;
- 3.) Wastewater Discharge Permit template – Volume 2, Tab 20;
- 4.) Industrial Discharge Agreement templates – Volume 2, Tab 23.

Thank you for your consideration. We look forward to your response.

Sincerely,

Angela Tagnani
Pretreatment Supervisor
