RE: Eastern Washington University Engineering Report and Source & Feasibility Study Report  
(State Waste Discharge Permit No. ST0008098)

Dear Mr. King:

Eastern Washington University Engineering Report and Source & Feasibility Study Report received in this office on September 5, 2013, has been reviewed and is hereby APPROVED. This fulfills the permit requirements of sections S9.2 (Engineering Report) and S13.1 (Source & Feasibility Report).

Ecology based the above approval in accordance with RCW 90.48.110 and Chapter 173-240 WAC. Eastern Washington University must notify this office immediately of any proposed changes or revisions to the approved documents. The permittee must provide changes or revisions in the form of addenda, technical appendices, or supplemental reports to the original approved package of documents. Ecology must approve changes in writing prior to implementation. Eastern Washington University must maintain copies of the approved engineering report, plans and specifications, operations and maintenance manual, permit, and Discharge Monitoring Reports (DMRs) on-site at the facility in Cheney, Washington.

Ecology's review and approval of these documents only assures compliance and consistency with the appropriate rules, regulations, guidelines, planning and design criteria, terms of any loan agreement, and/or other similar documents and the facility should not construe approval as a quality control check. Ecology does not intend anything in this approval as satisfying other applicable federal, state, or local statutes, ordinances, or regulations.

Please do not hesitate to contact Scott Mallery, P.E., at (509) 329-3473 or [smal461@ecy.wa.gov](mailto:smal461@ecy.wa.gov) if you have any questions or need any additional information.

Sincerely,

James M. Bellatty  
Section Manager  
Water Quality Program
