

August 7, 2020

The Honorable Randy Agnew
Mayor of Rock Island
PO Box 99
Rock Island, WA 98850

Dear Mayor Agnew:

Congratulations! The Rock Island Wastewater Treatment Plant is receiving the 2019 “Wastewater Treatment Plant Outstanding Performance” award. Of approximately 300 wastewater treatment plants statewide, yours is one of 125 that achieved full compliance with its National Pollutant Discharge Elimination System (NPDES) permit in 2019.

My staff evaluated wastewater treatment plants in Washington for compliance with the effluent limits, monitoring and reporting requirements, spill prevention planning, pretreatment, and overall operational demands of the NPDES permit.

This is the third consecutive year the Rock Island Wastewater Treatment Plant received this award. Your excellent record is a credit to the dedicated operators who are responsible for running this award-winning plant.

It takes diligent operators and a strong management team, working effectively together, to achieve this high level of compliance. It is not easy to operate a wastewater treatment plant 24 hours a day, 365 days a year, without violations. Ecology appreciates the extraordinary level of effort your plant operators demonstrated throughout 2019. Talented and proficient operators are critical to successful plant operations and protecting the health of Washington’s waters.

We will announce the 2019 award recipients, including the Rock Island Wastewater Treatment Plant, in the coming weeks.

Please call Donna Smith at 509-575-2612 if you have any questions or comments about your award.

Thank you for the excellent service your operators provide to your community and the waters of Washington.

Sincerely,

Vincent McGowan, P.E.
Water Quality Program Manager
