Clarkston, WA 99403
Attn: Steve Becker, Supervisor

RE: Leachate Management & Clarkston WWTP

Dear Steve,

Concerning the leachate from the Asotin County Landfill coming to our WWTP, I'd like to point out the following.

Since the landfill has been connected to our plant, we have seen no concern as to the leachate introduced. Given the location of the Landfill being nearly 5 miles from the treatment location and the dilution that takes place throughout that distance, I don't see a need for a special agreement with the City. Our Pretreatment Ordinance explains that we "may" enter into an agreement. Given the circumstances, I see no need to formally enter into an agreement when there is no noticeable impact on our processes at the plant.

Please feel free to share this with Ecology along with our offer to explain further if necessary. Let me know what, if anything else we can help with.

Sincerely,

James E. Martin
Public Works Director
