RE: Entity Review of Draft Permit and Fact Sheet for National Pollutant Discharge
Elimination System (NPDES) Permit WA0024473

Dear Marlene Feist:

Enclosed is a preliminary draft copy of Ecology's proposed permit and fact sheet. Please take this opportunity to review the draft documents for factual accuracy and submit comments on errors about the facility location, history, or discharges.

Please submit your comments to Diana Washington by mail at Department of Ecology, Water Quality Program, 4601 N. Monroe Street, Spokane, WA 99205-1295 or by email at dwas461@ecy.wa.gov **no later than midnight on December 5, 2021**. Ecology will address the City of Spokane's comments and make the appropriate corrections in the draft permit and fact sheet and place a public notice in a local newspaper. You will receive an official draft copy of the permit and fact sheet along with a copy of the public notice. There will be a 45-day comment period from the date of publication. At that time, the City of Spokane will have the opportunity to submit comments on requirements and conditions in the permit.

Please contact Diana Washington at (509) 385-5529 or by email at dwas461@ecy.wa.gov if you have questions or need additional time to review the draft documents.

Sincerely,

Shara Joy
Water Quality Program
