RE: Entity Review of Draft Permit and Fact Sheet for National Pollutant Discharge Elimination System (NPDES) Permit WA0045144

Dear BiJay Adams:

Enclosed is a preliminary draft copy of Ecology's proposed permit and fact sheet. Please take this opportunity to review the draft documents for factual accuracy and submit comments on errors about the facility location, history, or discharges. Ecology will not make substantive changes during the factual review. Submit comments or corrections to our office by February 24, 2022 by email to [Diana.Washington@ecy.wa.gov](mailto:Diana.Washington@ecy.wa.gov) or by writing to **Diana Washington, Department of Ecology, Water Quality Program, 4601 N. Monroe Street, Spokane, WA 99205-1265.**

Ecology will make the appropriate corrections in the draft permit and fact sheet and place a public notice in a local newspaper. An official draft copy of the permit and fact sheet will be sent to you along with a copy of the public notice. There will be a 45-day comment period from the date of publication. At that time, Liberty Lake Sewer and Water District will have the opportunity to submit comments on requirements and conditions in the permit.

Please contact Diana Washington at (509) 385-5529 or by email at [dwas461@ecy.wa.gov](mailto:dwas461@ecy.wa.gov) if you have questions or need additional time to review the draft documents.

Sincerely,

Shara Joy  
Water Quality Program  
Eastern Regional Office
