PERMIT NO: WA0022667

APPLICANT: Town of Cathlamet  
375 2<sup>nd</sup> Street  
Cathlamet, WA 98612

FACILITY: Town of Cathlamet Wastewater Treatment Plant  
171 East State Route 4  
Cathlamet, WA 98612

The town of Cathlamet has applied for a National Pollutant Discharge Elimination System (NPDES) Permit in accordance with the provisions of [Chapter 90.48 Revised Code of Washington \(RCW\)](#), [Chapter 173-216 Washington Administrative Code \(WAC\)](#), and [Federal Clean Water Act](#).

The town of Cathlamet Presently owns or operates an Activated Sludge (Oxidation Ditch) wastewater treatment plant which is designed to handle an average/maximum daily flow of 0.383 million gallons per day. The wastewater, following treatment, must meet the requirements of the Washington State Water Pollution Control Act (Chapter 90.48 RCW) and applicable regulations for a permit to be issued.

Following evaluation of the application and other available information, a draft permit has been developed which would allow the discharge of treated municipal wastewater from Cathlamet Wastewater Treatment Plant to the Columbia River (Cathlamet Channel).

A tentative determination has been made on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.
