Dear Dave Piepel:

RE: **2020-2021 Discharge Monitoring Report for Piepel Land Holdings: Chehalis Street--WAG435289; Webb Street—WAG994308**

Ecology has reviewed your **2020 and 2021** annual discharge monitoring reports (DMR's). The tables below summarize the permit violations found. The purpose of this letter is to provide you an opportunity to review these violations and submit corrections if the records are not accurate.

**2020-WAG435289—Chehalis Street**

Outfall No(s).	Parameter	Date	Reported Value	Permit Limit
002	pH, Standard Units	6/23/2020	5.1	6.0-9.0

**2021-WAG994308—Webb Street**

Outfall No(s).	Parameter	Date	Reported Value	Permit Limit
002A	Missing Analysis, ALL <sup>1</sup>	All Quarters <sup>1</sup>	Once per quarter required	Once per quarter required

<sup>1</sup>This appears to be reporting errors

It appears that most violations for your Webb Street facility may be reporting errors. Also for the Webb Street facility, the 2020 DMR appears to be completed **but not submitted**. These items should be corrected, however only **the 2020 DMR MUST BE completed by submitting it**. It is up to your management to determine if you want to correct the reporting errors.

**Other than to submit the 2020 DMR for the Webb Street facility (WAG994308) no further response is required from your facility.** Please look for a second email with instructions and screen shots of the DMR for WAG994308.

If you have any questions or concerns please contact me at 509-406-6624 (cell), or email [marcia.porter@ecy.wa.gov](mailto:marcia.porter@ecy.wa.gov).
