Dear Randy Deans:

Re: State Waste Discharge Permit No. ST0006141 noncompliance notification

Our office has attempted to review your November 2021, December 2021, and January 2022 Discharge Monitoring Report (DMR). The following was not in compliance:

**The DMRs are in “NOT STARTED” status, please finalize and submit.**

Your permit requires you to report monitoring results. The checked item below indicates if further notification is required regarding the above violation.

- No further action is required.
- Please submit the DMR as soon as possible.

Compliance Assurance is the goal of the Clean Water Act's self-monitoring program. The DMR is the principle tool used to enforce the self-monitoring program. Be aware of the importance the Department of Ecology (Department) places on complete and accurate DMRs and the legal implications they have for your facility. Noncompliance with the limits, monitoring requirements, terms and/or conditions established in your permit may result in formal enforcement action by the Department.

Compliance Assurance is the goal of the Clean Water Act's self-monitoring program. The DMR is the principle tool used to enforce the self-monitoring program. Be aware of the importance the Department of Ecology (Department) places on complete and accurate DMRs and the legal implications they have for your facility. Noncompliance with the limits, monitoring requirements, terms and/or conditions established in your permit may result in formal enforcement action by the Department.

If you have any questions about your permit or need technical assistance with your facility or for completing your monitoring reports, please contact Aziz Mahar, at 360-763-2787 or by e-mail at [AMAH461@ECY.WA.GOV](mailto:AMAH461@ECY.WA.GOV).

Sincerely,

---
