Melissa Caldwell

Dear Ms. Tran:

On behalf of Chevron Environmental Management Company (CEMC), Arcadis U.S., Inc. (Arcadis) requests an extension on the submittal date for the Treatment System Operating Plan required for National Pollutant Discharge Elimination System Waste Discharge Permit No. WA0991041.

Phone:

503.785.9381

Email:

Melissa.Caldwell@arcadis.com

The Treatment System Operating Plan (TSOP), required in section S4.A of the National Pollutant Discharge Elimination System Waste Discharge Permit, is currently due on April 29, 2022. Arcadis is requesting an extension due to delays in remediation system installation. Due to a limited number of subcontractors available for this type of specialized work, there has been a delay in scheduling.

Our ref:

30012459

System installation is now scheduled to occur in the second quarter of 2022. The system will not be operated and no discharge will occur until after installation is complete.

The proposed delivery date for the TSOP is July 29, 2022. This extension will allow for complete as-builts of the system to be included in the TSOP.

Should you have any questions regarding the enclosed or if Arcadis can be of further assistance please contact Melissa Caldwell at (503) 785-9381.
