RE: Bridge Industrial Project and Sierra Construction Company seeking coverage under Construction Stormwater NPDES and State Waste Discharge General Permit

**“establish a sustainable future for generations to come”**

[Lionclubs.org](http://Lionclubs.org)

I am a member of Olympia Host Lions Club, part of District 19C, Thurston County. One of our five International Lions Global Causes is to protect our environment and “establish a sustainable future for generations to come”. I am strongly against building a mega warehouse in South Tacoma, and am astonished to learn that it would be covering some of the last open green space above the South Tacoma aquifer. I hope the Tacoma City Council rethinks this ill-considered plan, for the sake of our environment and for the sake of a sustainable future.

Respectfully,  
Dr. Barak Gale
