Re: National Pollutant Discharge Elimination System (NPDES)
Permit No. WA0020257; City of Anacortes Wastewater Treatment Plant (WWTP)

Dear Rebecca Fox:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the City of Anacortes WWTP on May 25, 2022. The application has been reviewed and accepted as complete on June 14, 2022.

Your current NPDES permit has an expiration date of November 30, 2022. Renewal of the permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility, in accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5).

If you have any questions regarding the development of your renewal permit, please contact Kevin Leung at (425) 200-8996 or by email at kevin.leung@ecy.wa.gov.

Sincerely,

Tricia Miller
Permit Coordinator
Northwest Regional Office
