RE: Noncompliance Notification for National Pollutant Discharge Elimination System (NPDES) Permit No. WA0038407, National Fish & Oyster

Dear Catherine Gyls:

NPDES Permit No. WA0038407 requires that monitoring data obtained during each monitoring period shall be summarized, reported, and submitted on a Discharge Monitoring Report (DMR) form provided, or otherwise approved, or through our WQWebDMR. DMR forms shall be received/submitted no later than the 15th day of the month following the completed monitoring period, unless otherwise specified in this permit.

Your DMR for **April 2022**, was due no later than May 15, 2022, and was not submitted until May 26, 2022.

Reports which do not comply with permit limits and/or monitoring requirements are treated as a violation.

Compliance Assurance is the goal of the [Clean Water Act](#)'s self-monitoring program. The DMR is the principle tool used to enforce the self-monitoring program. Be aware of the importance Ecology places on complete and accurate DMRs and the legal implications they have for your facility. Noncompliance with the limits, monitoring requirements, terms, and/or conditions established in your permit may result in formal enforcement action by Ecology.

If this letter is incorrect, you have any questions about your permit, or need technical assistance with your facility or for completing your monitoring reports, please contact me at anna.wallace@ecy.wa.gov or by phone at (360) 522-6216 (cell).

Sincerely,

A handwritten signature in black ink, appearing to read "Anna Wallace", with a long horizontal line extending to the right.

Anna Wallace
