RE: Noncompliance Notification for National Pollutant Discharge Elimination System (NPDES) Permit No. WA0039021, Troutco Clear Creek

Dear Keith Drynan:

NPDES Permit No. WA0039021 requires that monitoring data obtained during each monitoring period shall be summarized, reported, and submitted on a Discharge Monitoring Report (DMR) form provided, or otherwise approved, or through our WQWebDMR. DMR forms shall be received/submitted no later than the 15th day of the month following the completed monitoring period, unless otherwise specified in this permit.

Your DMR for **June 2022**, was due no later than July 30, 2022, and was not submitted until July 31, 2022.

Reports which do not comply with permit limits and/or monitoring requirements are treated as a violation.

Compliance Assurance is the goal of the [Clean Water Act](#)'s self-monitoring program. The DMR is the principle tool used to enforce the self-monitoring program. Be aware of the importance Ecology places on complete and accurate DMRs and the legal implications they have for your facility. Noncompliance with the limits, monitoring requirements, terms, and/or conditions established in your permit may result in formal enforcement action by Ecology.

If this letter is incorrect, you have any questions about your permit, or need technical assistance with your facility or for completing your monitoring reports, please contact me at john.diamant@ecy.wa.gov or by phone at (360) 819-3824 (cell).

Sincerely,

John Diamant
