RE: Noncompliance Notification for Sand and Gravel General National Pollutant Discharge  
Elimination System (NPDES) Permit No. WAG501096, Lynch Creek Quarry

Dear David Randles:

Our office has not received your **2<sup>nd</sup> Quarter 2022**, Discharge Monitoring Report (DMR). If you have already submitted your DMR, you do not need to respond to this letter. If you have not submitted your DMR, please do so as soon as possible.

Reports which do not comply with permit limits and/or monitoring requirements are treated as a violation.

Compliance Assurance is the goal of the [Clean Water Act](#)'s self-monitoring program. The DMR is the principle tool used to enforce the self-monitoring program. Be aware of the importance Ecology places on complete and accurate DMRs and the legal implications they have for your facility. Noncompliance with the limits, monitoring requirements, terms, and/or conditions established in your permit may result in formal enforcement action by Ecology.

If this letter is incorrect, you have any questions about your permit, or need technical assistance with your facility or for completing your monitoring reports, please contact me at [eli.newby@ecy.wa.gov](mailto:eli.newby@ecy.wa.gov) or by phone at (360) 763-2633 (cell).

Sincerely,

A handwritten signature in black ink, reading "Eli Newby".

Eli Newby
