Re Application for Renewal of National Pollutant Discharge Elimination System (NPDES)  
Wastewater Discharge Permit Number WA0039021, Toutco Clear Creek

Dear Keith Drynan:

[Chapter 173-220 Washington Administrative Code \(WAC\)](#) requires a Permittee to file an application for replacement.

Your NPDES Permit No. WA0039021 expires on July 31, 2025. An electronic copy of the application may be downloaded by going to the Environmental Protection Agency (EPA) website: <https://www.epa.gov/npdes/npdes-applications-and-forms-epa-applications>. Please complete the application and return it no later than **April 30, 2023**, to:

Jessica Christensen  
Permit Administrator  
Department of Ecology  
Southwest Regional Office – WQ  
PO Box 47775  
Olympia, WA 98504-7775

Ecology permit manager for your facility is John Diamant. Review all the questions to determine if applicable areas apply. Please submit any additional information that may help Ecology determine the impact of your discharge to groundwater.

If you file an incomplete or inaccurate submittal, we may proceed with one or more of the following actions:

- Return the application form for completion or additional information.

Keith Drynan

Page 2

- Proceed to issue a permit with limited information. Permits issued under such circumstances typically have more stringent limits, and more monitoring and reporting because of the uncertainty of the discharge situation.
- Issue an enforcement order requiring completion of the permit application. A penalty may be issued if wastewater discharge is occurring without an appropriate permit.

Ecology expects a permit application to be completed and accurate upon submittal. If there are any questions about the application or the permitting process, please contact John Diamant at [john.diamant@ecy.wa.gov](mailto:john.diamant@ecy.wa.gov) or (360) 819-3824 (cell). If needed, a meeting can be arranged.

Sincerely,

Jessica Christensen  
Permit Administrator
