RE: Permit Submittal Not Received for State Waste Discharge Permit ST0501285

Dear Chad Arnold:

This letter is to remind you of a past due permit submittal that need attention. The Summary of Permit Report Submittals specifically lists required permit submittals during the current permit cycle and their due dates. The following submittal is late:

- | | | |
|--|---------------|----------------------|
| 1. 2021 O&M Review Confirmation Letter | Due 6/30/2022 | Status: Not Received |
|--|---------------|----------------------|

Please upload the above submittals into the Water Quality Permitting Portal. Permit Condition S3.B states, "The Permittee must use the Water Quality Permitting Portal – Permit Submittals application (unless otherwise specified in the permit) to submit all written permit-required reports by the date specified in the permit."

Each late submittal constitutes a separate violation of the permit. Ecology wants to make sure you are aware of the violations and to help your facility stay in compliance with the limits, monitoring requirements, and conditions of the Ancient Lake Wine Company wastewater discharge permit.

Please contact me if you need assistance. I can answer questions or assist you with the upload of the report online into the WQWebPortal.

Please contact Vijay Kubsad, permit manager at (509) 655-9129 for all other questions.

Sincerely,

Shara Joy
