RE: Noncompliance Notification for National Pollutant Discharge Elimination System
(NPDES) Permit No. WA0038407, National Fish & Oyster

Dear Catherine Gyls:

Your permit requires that you send us the following:

Permit Section	Submittal	Due Date
S7	Best Management Practices	July 1, 2022
S5C	Solid Waste Control Plan	July 1, 2022

Failure to submit reports or submittals by their required due date are violations of your State Waste Discharge Permit. You should be aware that violations are subject to enforcement action, including Administrative Orders, to correct the problem and/or Civil Penalties, in accordance with [Washington Administrative Code \(WAC\) 173-220-230](#).

Reports which do not comply with permit limits and/or monitoring requirements are treated as a violation.

Compliance Assurance is the goal of the [Clean Water Act](#)'s self-monitoring program. The DMR is the principle tool used to enforce the self-monitoring program. Be aware of the importance Ecology places on complete and accurate DMRs and the legal implications they have for your facility. Noncompliance with the limits, monitoring requirements, terms, and/or conditions established in your permit may result in formal enforcement action by Ecology.

Catherine Gyls
