

2. How many annual jet departures take place at your airport?

☐ 10,000 or more (contact your Permit Administrator)

☐ 1,000 or more, less than 10,000 (go to 2a)

☐ Less than 1000 (go to Section III)

2a. On airports with 1,000 or more annual jet departures; does the facility discharge wastewater associated with airfield pavement deicing with stormwater?

☐ Yes (go to 2b) ☐ No (go to Section III).

2b. If yes, do you use urea containing deicers? ☐ Yes ☐ No

III. Other Permits Check all that apply.

☐ NPDES Permit (Individual or General) Permit No. _____

☐ State Waste Discharge Permit (Individual or General) Permit No. _____

IV. Site Information

A. Indicate where your site's stormwater could enter waters of the state, **directly** and/or **indirectly**:

☒ Water will discharge directly or indirectly (through a storm drain system or roadside ditch) into one or more surface waterbodies (wetlands, creeks, lakes, and all other surface waters and water courses).

☐ Water will discharge to ground with 100% infiltration, with no potential to reach surface waters under any conditions. (If checked, skip to section V.)

B. Discharge Point(s) Latitude and Longitude: Provide latitude and longitude in degrees (°), minutes ('), and seconds (") for each of your facility's discharge point(s). List **all** discharge points. Use an extra sheet of paper if necessary. For sites with 100% infiltration, identify provide the location where the water collects for infiltration **or** the center of the facility if no stormwater collects onsite.

For the discharge identifier, list the name, number, or letter used on your site map to identify the point(s) of discharge. The identifier can be a maximum of three characters long and **must be unique** for each discharge point.

If you identify more than one discharge point, mark the discharge point(s) you will sample to comply with the permit sampling requirements by checking the Sample Point box.

NOTE: Ecology uses the unique identifier given to identify the sampling point in WQWebDMR.

Discharge identifier. These cannot be symbols. (maximum of three characters e.g., 01A)	Latitude degrees, minutes, seconds	Longitude degrees, minutes, seconds	Sample Point	Location description
	° ' N	° ' W	<input type="checkbox"/>	
	° ' N	° ' W	<input type="checkbox"/>	
	° ' N	° ' W	<input type="checkbox"/>	
	° ' N	° ' W	<input type="checkbox"/>	

C. Receiving Water Latitude / Longitude: Provide latitude and longitude in degrees (°), minutes ('), and seconds (") of you facility's discharge where it enters the lake, river, stream, or pond. List all receiving waters for the site. Use an extra sheet of paper if necessary

Receiving Waterbody	Latitude degrees, minutes, seconds	Longitude degrees, minutes, seconds
	° ' N	° ' W
	° ' N	° ' W
	° ' N	° ' W

	o ' N	o ' W
	o ' N	o ' W

You must submit monthly discharge monitoring reports using Ecology's WQWebDMR system. To sign up for WQWebDMR, or to register a new site, go to www.ecy.wa.gov/stormwater, and click on the "Industrial Permit" link. You will find information on WebDMR under the "WQWebDMR and PARIS" link on the right-hand side.

To have the ability to use the system immediately, **you must submit the Electronic Signature Agreement with your application.** If you have questions on this process, contact Ecology's WebDMR staff at WAWebDMR-Stormwater@ecy.wa.gov or 360-407-7097.

If you are unable to submit your DMRs electronically, you may contact Ecology to request a waiver. Ecology will generally only grant waiver requests to those permittees without internet access. Only a permittee or representative, designated in writing, may request access to or a waiver from WebDMR.

V. State Environmental Policy Act (SEPA)

Applies only to facilities that began operations after January 2, 2015.

Has a SEPA review been completed? ☐ Yes ☐ No ☐ Exempt
 Type of SEPA determination: ☐ Determination of Non-Significance (DNS) ☐ Final Environmental Impact Statement (EIS) ☐ Mitigated DNS (MDNS)
 Agency issuing DNS, MDNS, Final EIS, or Exemption: _____
 Date: _____

VI. Public Notice

New Facilities beginning operations after **January 2, 2015** and new dischargers (see instructions) must publish a public notice at least **once** a week for **two** consecutive weeks with **seven days** in between publications, in a **single** newspaper of general circulation in the county in which the facility is located. Ecology cannot grant permit coverage earlier than the end of the 30-day public comment period, which begins on the date of the second public notice.

Submit (or fax: 360-407-6426) the application to Ecology **on** or **before** the date of the **first** public notice. If you fax the application to Ecology, you must follow up with hard copy by mail within 10 days.

Date of the first public notice: _____
 Date of second public notice: _____ (Begins 30-day public comment period)

Example: Date of the first public notice: 01/02/2015

Date of second public notice: 01/08/2015

Name of the newspaper that will publish the public notices:

Complete this template using site-specific information. The **bold** language is required by WAC 173-226-130 and must be included in its entirety. (Either use the fill-in template below or attach on a separate sheet of paper, if necessary.)

Enter name of applicant, Enter name and address of facility is seeking coverage under the Washington State Department of Ecology's Industrial Stormwater NPDES and State Waste Discharge General Permit.

The industrial site, known as Site name is located at Enter street address in Enter name of nearest city. Operations will start up on/started on (select one) Enter date. Industrial activities include Briefly describe the industrial activity. Stormwater from the site discharges to List unnamed and named receiving waters.

Any persons desiring to present their views to the Washington State Department of Ecology regarding this application, or interested in Ecology's action on this application, may notify Ecology in writing no later than 30 days of the last date of publication of this notice.

Ecology will review all public comments regarding Tier II antidegradation and consider whether discharges from this facility are expected to cause a measurable change in the quality of the receiving water and, if so, whether such change is necessary and in the overriding public interest.

Comments can be sent to:
