Re: National Pollutant Discharge Elimination System (NPDES)  
Permit No. WA0032174; Marine Fluid Systems, Inc.

Dear Gregory Bostwick:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for Marine Fluid Systems, Inc. on September 22, 2022. The application has been reviewed and was accepted as complete on January 27, 2023.

Your current NPDES permit has an expiration date of March 31, 2023. Renewal of the permit is in process; however, the permit may not be issued by the expiration date. In accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5), if your renewal permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility,

If you have any questions regarding the development of your renewal permit, please contact Joey Jiang at (206) 507-8283 or by email at [joey.jiang@ecy.wa.gov](mailto:joey.jiang@ecy.wa.gov).

Sincerely,

Tricia Miller  
Permit Coordinator  
Northwest Regional Office
