Re: National Pollutant Discharge Elimination System (NPDES)
Permit No. WA0029548; City of Snohomish Wastewater Treatment Plant (WWTP)

Dear Duane Leach:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the City of Snohomish WWTP on December 15, 2022. The application has been reviewed and accepted as complete on February 28, 2023.

Your current NPDES permit has an expiration date of June 30, 2023. Renewal of the permit is in process; however, the permit may not be issued by the expiration date. In accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5), if your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility.

If you have any questions regarding the development of your renewal permit, please contact Kevin Leung at (425) 200-8996 or by email at kevin.leung@ecy.wa.gov.

Sincerely,

Tricia Miller
Permit Coordinator
Northwest Region Office
