Re: National Pollutant Discharge Elimination System (NPDES)
Permit No. WA0029181; West Point WWTP and CSO System

Dear Mr. Isaacson:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the West Point WWTP and CSO System on January 31, 2019. The application has been reviewed and accepted as complete on January 22, 2020.

Your current NPDES permit has an expiration date of January 31, 2020. Renewal of your permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility, in accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5).

If you have any questions regarding the development of your renewal permit, please contact Shawn McKone at (425) 649-7037 or Email at shawn.mckone@ecy.wa.gov

Sincerely,

Tricia Miller
Permit Coordinator
Northwest Regional Office
