Permit Submittal Electronic Certification

Permittee: Peshastin POTW

Permit Number: WA0052175

Site Address: 10395 MILL RD
PESHASTIN, WA 98847

Submittal Name: Application for Permit Renewal (Individual Permit) Permit

Version: 1

Due Date: 6/1/2023

Comments: Influent data used to populate the application was downloaded from Ecology's Paris database. Upon reviewing the data we found some errors from previously submitted DMR's, which was corrected for this submittal. These include effluent phosphorus data reported as mg/L instead of the required ug/L for several months in 2020. We also found two days where daily flow was reported a full order of magnitude higher than the actual value. Note in section 1.10 the data for "this year" is 4/2021-3/2022. Prior years are reported for the same months. The effluent data in Table A and B is from 5/2019-4/2023. Table F data is from 2022.

I certify under penalty of law, that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
