Re: State Reclaimed Water Permit Renewal Application
Permit No. ST0007373; Holmes Harbor Sewer District

Dear William Hamilton:

Your application for a State Reclaimed Water (SRW) permit renewal was received by the Department of Ecology (Ecology) on May 19, 2023 and accepted as complete on May 25, 2023.

Your current SRW permit has an expiration date of December 31, 2023. Renewal of the permit is in process; however, the permit was not issued by the expiration date. In accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code WAC 173-219-070, if your renewal permit is not issued and effective by the current permit's expiration date, the current permit and its terms and conditions will remain in effect and enforceable until Ecology issues a new permit for your facility.

Ecology plans to replace the existing SRW permit no. ST0007373 issued to the Holmes Harbor Sewer District with a new SRW permit number. Your new permit will have the number ST0501346.

If you have any questions regarding the development of your reclaimed water permit, please contact Madison Diaz at (425) 495-1777 or by email at Madison.diaz@ecy.wa.gov.

Sincerely,

Tricia Miller
Permit Coordinator
Northwest Region Office
