Re: Combined Water Pollution Prevention Plan - Review and Submittal

Dear Ms. Tran:

This notice is being sent to you per Nucor Steel's NPDES Permit # WA-0031305.

In the past year, Nucor Steel Seattle made a revision to Table 2, Potentially Significant Materials, and Figure 1, Facility Map within our Combined Spill and Stormwater Pollution Prevention Plan. No new materials were added, this was simply a revision to account for changes in storage locations of a few existing materials.

Please call me at 206-933-2205 if you have any questions or comments.

Respectfully,

A handwritten signature in black ink, appearing to read 'J. Eis', is written over a horizontal line.

Jeffrey Eis
Environmental Engineer
