RE: Upload of Laboratory Reports for State Waste Discharge Permit ST0005335 – Tyson Fresh Meats

Dear Adam Konopasek:

Special Condition S3 of your State Waste Discharge permit requires you to submit a copy of the laboratory report as an attachment to your discharge monitoring report (DMR) into WebDMR when an outside laboratory performs the analysis for your facility's samples. Please upload copies of laboratory reports with your facility's DMR submittals. If utilized, contract laboratory reports must include information on chain of custody, QA/QC results, and documentation of accreditation for the parameter.

Please contact Charlotte Daskalopoulos, Tyson Fresh Meats's newly assigned Permit Manager, at (509) 703-2830 if you have questions about providing laboratory reporting or if you would like instructions on how to upload the attachment to your DMR in the WQWebPortal system.

Sincerely,

Art Jenkins, PE.  
Permit Management Unit Supervisor  
Water Quality Program  
Eastern Regional Office
