ADDITIONAL INFORMATION for Notice of Termination (NOT) Form

ANNUAL PERMIT FEES continue through the fiscal year that Ecology terminates permit coverage.
Per the Fee Rule, fees can not be prorated in the final fiscal year of the permit.

Information about Construction Activity Conditions

Information about Construction activity conditions can also be found in the general permit, which can be found online at: <https://ecology.wa.gov/Regulations-Permits/Permits-certifications/Stormwater-general-permits/Construction-stormwater-permit>.

If you have questions about stormwater discharges, DMRs, transfers, or the conditions for termination, please visit the webpage address above for the general permit. This webpage also has a list of Ecology staff with contact information for each county.

On the NOT form, Section III, indicate that one of the permit conditions for termination has been met. A more detailed description of those conditions is below:

- The construction project has not started and there are no other sources of construction stormwater.
- Final stabilization means established permanent vegetative cover, or equivalent permanent stabilization measures which prevent erosion. You are certifying that:
 - Soils are no longer being disturbed.
 - All permanent vegetative cover is fully established and growing.
 - All exposed soils are permanently stabilized to prevent erosion.
 - All temporary sediment and erosion control BMPs such as catch basin filters and silt fencing, etc. are removed.
 - All Low Impact Development (LID) Bioretention and Rain Garden facilities are fully functional and free of sediment accumulated during construction.
 - All stormwater discharges associated with construction activity are eliminated.
- The site has not undergone final stabilization and the permit has been transferred to another responsible party(ies) (Provide required information from the Transfer of Coverage form).
- All portions of the site that have not undergone final stabilization have been sold. Use this option for residential construction when the permittee has completed temporary stabilization and the homeowners have taken possession of the residences.

Please hand sign and email or mail this document to wqfeeunit@ecy.wa.gov to begin the termination process. Per EPA requirements, they will not accept a digital signature. The mailing address is:

Department of Ecology
Water Quality - Permit Fee Unit
PO Box 47600
Olympia, WA 98504-7696

Note: Your site remains under permit and subject to all permit conditions until your termination request is approved. Continue to comply with permit conditions you receive written notification from Ecology that the permit has been terminated. Keep the written notification on file for your records.

Questions? Contact the Fee Unit at 1 (800) 633-6193, Option 2, or wqfeeunit@ecy.wa.gov

To request an ADA accommodation, contact Ecology at 360-407-6831 or by email at jackie.lince@ecy.wa.gov, or visit <https://ecology.wa.gov/accessibility>. For Relay Service or TTY call 711 or 877-833-6341
