**RE: Clarification of pH Range in Group14's Wastewater Application**

Dear Mr. Hallinan,

Thank you for your recent emails in early December 2023 regarding the pH range listed in Group14's wastewater application. For clarification, Group14 is respectfully requesting an allowable pH range that's aligned with the City of Moses Lake municipal wastewater regulations.

13.05.070(f) allows for a pH range of 6.0 to 11.0. Please amend Group14's application to allow for this range. This will be for Group14's facility located at 13431 Wheeler Road NE in Moses Lake, WA.

Sincerely,

Paul Stenhouse  
Group14 Environmental Manager
