Re: Application for Renewal of State Waste Discharge Permit Number ST0006255, NuStar Terminals Operations Partnership, LP

Dear Chris Vratil:

Washington's Water Pollution Control Law, [Chapter 90.48 Revised Code of Washington \(RCW\)](#), requires that your company submit a new permit application prior to expiration of your existing wastewater discharge permit.

Your State Waste Discharge Permit No. ST0006255 expires on April 30, 2025. An electronic copy of the application may be downloaded from the Ecology website at <https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-quality-permits/Water-Quality-individual-permits#forms>. Please complete the application and return it no later than **May 1, 2024**, to:

Gayle Garbush
Permit Administrator
Department of Ecology
Southwest Region Office – WQ
PO Box 47775
Olympia, WA 98504-7775

If you file an incomplete or inaccurate submittal, we may proceed with one or more of the following actions:

- Return the application form for completion or additional information.
- Proceed to issue a permit with limited information. Permits issued under such circumstances typically have more stringent limits, and more monitoring and reporting because of the uncertainty of the discharge situation.
- Issue an enforcement order requiring completion of the permit application. A penalty may be issued if wastewater discharge is occurring without an appropriate permit.

Ecology expects a permit application to be completed and accurate upon submittal. If there are any questions about the application or the permitting process, please contact Jacek Anuszewski at jacek.anuszewski@ecy.wa.gov or (360) 628-3657 (cell). If needed, a meeting can be arranged.

Sincerely,

Gayle Garbush
Permit Administrator
