Note: Refer to TABLE 2 in the SWPPP for more details about each pollutant generating activity.
 Stormwater in contact with industrial activity flows west off the property and directly into Wapato Creek which is about 20 feet west of the property line and to the north into drainage ditch off of the roof at 910 54th Avenue East.
 Stormwater permit sample discharge point is FG-2-North (Outfall 2).
 Map features are approximate and are only meant to provide an indication of said features.

Legend	Area of Basin
■ Catchment Basin Circuit 1	~ 114,029 Square Feet
■ Catchment Basin Circuit 2	~ 82,368 Square Feet
■ Catchment Basin Circuit 3	~ 28,245 Square Feet
■ Catchment Basin Circuit 4	~ 54,408 Square Feet
■ Catchment Basin Circuit 5	~ 18,454 Square Feet
