Subject: G19 Certification and Signature Authorization

Mr. Maupin:

Clark Community College is submitting this written authorization as required by General Condition G19 in the Western Washington Phase II Municipal Stormwater Permit (WAR045212). As allowed under federal regulations 40CFR – 122.22, the College can authorize a representative to sign all reports and other information submitted to the Washington State Department of Ecology on behalf of the principal executive officer.

This letter formally and specifically authorizes the Director of Facility Services to sign on my behalf any documents required by the permit and any other official correspondence related to the Municipal Stormwater Permit program that would otherwise bear my signature, to the full extent allowed by permit or law.

I certify, under penalty of law, that this document and all attachments were prepared under my direction or supervision per a system designed to ensure that Qualified Personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and imprisonment for willful violation.

Sincerely,

Sabra Sand

Vice President of Administrative Services
