Re: Noncompliance Notification for State Waste Discharge Permit No. ST0006081, Port of Longview

Dear Sean Kelly:

State Waste Discharge Permit No. ST0006081 requires that monitoring data obtained during each monitoring period shall be summarized, reported, and submitted on a Discharge Monitoring Report (DMR) form provided, or otherwise approved, or through our WQWebDMR. DMR forms shall be received/submitted no later than the 15th day of the month following the completed monitoring period, unless otherwise specified in this permit.

Your DMR for **July 2023**, was due no later than August 15, 2023, and was not submitted until September 7, 2023.

Reports which do not comply with permit limits and/or monitoring requirements are treated as a violation. If this letter is incorrect or if you have questions or comments, please contact me at jonathan.drygas@ecy.wa.gov or by phone at (360) 522-6883.

Compliance Assurance is the goal of the [Clean Water Act](#)'s self-monitoring program. The DMR is the principal tool used to enforce the self-monitoring program. Be aware of the importance Ecology places on complete and accurate DMRs and the legal implications they have for your facility. Noncompliance with the limits, monitoring requirements, terms, and/or conditions established in your permit may result in formal enforcement action by Ecology.

If you have any questions about your permit or need technical assistance with your facility or for completing your monitoring reports, please contact Kamren Moen at kamren.moen@ecy.wa.gov or by phone at (360) 810-1340.

Sincerely,

Jonathan Drygas
Compliance and Enforcement Specialist
