Level II Response Implementation due: May 29, 2024

Seattle Yachts herewith requests an extension to implement the Level II mitigation response for 3 exceedances in 2023 until July 29, 2024. Seattle Yachts is currently working with an engineer to design a non-proprietary media filter for processing stormwater at this location. We are sourcing and purchasing materials to build and install this media filter.

This filter will be built and installed soon when materials and components have been obtained.

Thank you,

A handwritten signature in black ink, appearing to be "DH", written over a light blue horizontal line.
