**RE: Administrative Extension for NPDES Permit No. WA0052175 for Peshastin POTW
Effective June 1, 2024**

Dear Ron Slabaugh:

The Washington State Department of Ecology (Ecology) acknowledges receiving an NPDES permit application for Peshastin POTW on May 2, 2023. The application was reviewed and accepted as complete on March 31, 2024. Your current NPDES permit has an expiration date of May 31, 2024. Renewal of your permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are hereby administratively extended effective **June 1, 2024**, the day following expiration of your existing permit. **It will remain in effect and enforceable until Ecology issues a new permit for your facility**, in accordance with the Washington Administrative Code 173-220-180(5).

That means your facility must continue to comply with the terms and conditions of the previous permit, issued on June 1, 2019. During the permit renewal process, Ecology may determine that additional information is necessary to complete the permit. In order to maintain complete application status, Peshastin POTW must provide any additional information Ecology may request in a timely manner.

If you have any questions regarding the permitting process, please contact Erik Van Doren at (509) 571-0934 or erik.vandoren@ecy.wa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Damon G. Roberts".
