Dear Dorien McElroy:

Thank you for the timely submittal of the NPDES permit renewal application for Cashmere POTW. The application was reviewed and accepted as complete on June 17, 2024.

As the draft permit is developed, the Department of Ecology (Ecology) staff may contact you with questions or request a visit to your facility. In order to maintain complete application status, Cashmere POTW must provide any additional information Ecology may request in a timely manner. The permit writer currently assigned to write your permit is Caleb Bos.

In accordance with Chapter 90.48 of the Revised Code of Washington (RCW), your existing permit and the terms and conditions thereof remain in effect until further notice. You are also required to comply with all water pollution law and regulations.
