RE: Administrative Extension for State Waste Discharge Permit No. ST0009261 for Sun Rype Products USA, Inc., Effective October 1, 2024

Dear David Krell:

The Washington State Department of Ecology (Ecology) acknowledges receiving an application for renewal of State Waste Discharge Permit No. ST0009261 on October 3, 2023. Your current State Waste Discharge Permit has an expiration date of September 30, 2024. Renewal of your permit is in process; however, the permit may not be issued by the expiration date.

If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are hereby administratively extended effective **October 1, 2024**, the day following expiration of your existing permit. **It will remain in effect and enforceable until Ecology issues a new permit for your facility.**

That means your facility must continue to comply with the terms and conditions of the previous permit, issued on August 28, 2019. During the permit renewal process, Ecology may determine that additional information is necessary to complete the permit. In order to maintain complete application status, Sun Rype Products USA, Inc. must provide any additional information Ecology may request in a timely manner.

If you have any questions or need assistance, please feel free to contact Keith Primm, your permit manager at (509) 406-0331 or keith.primm@ecy.wa.gov.

Sincerely,

A handwritten signature in black ink that reads "Damon G. Roberts". The signature is written in a cursive style with a large, stylized 'D' and 'R'.
