RE: Change of disturbed acres covered under the Construction Stormwater General Permit

Permit Number:	WAR311752
Site Name:	Cathcart Crossing
Location:	Cathcart Way
	Snohomish County: Snohomish
Disturbed Acres:	18.82

Dear Tom Allen:

The Washington State Department of Ecology (Ecology) received your request to change the disturbed acreage covered under the Construction Stormwater General Permit (CSWGP). Ecology approves a decrease in permit coverage from 19.57 disturbed acres to 18.82 acres effective March 12, 2024.

Retain this letter as an official record of permit coverage for your site. You may keep your records in electronic format if you can easily access them from your construction site. You can get the CSWGP, permit forms, and other information at Ecology's [CSWGP eCoverage Packet webpage](#)¹. Contact your Permit Administrator, listed below, if you would like a hard copy of the CSWGP mailed to you. Please read the permit and contact Ecology if you have any questions.

Annual Permit Fees

RCW 90.48.465 requires Ecology to recover the costs of managing the permit program. Permit fees are invoiced annually until the permit is terminated. Termination conditions are described in the permit. For permit fee related questions, please contact the Water Quality Fee Unit at wqfeeunit@ecy.wa.gov or (800) 633-6193, Option 2. You can also visit [Water Quality Permit Fees Webpage](#)² for more information.

Ecology Field Inspector Assistance

If you have questions regarding stormwater management at your construction site, please contact your Regional Inspector, Luis Buen Abad of Ecology's Northwest Regional Office in Shoreline at
