Mr. Brian Daley
Seattle Steel
c/o CEM
10900 NE 4th Street
Bellevue, WA 98004

RE: Cancellation of NPDES Permit No. WA-000074-4

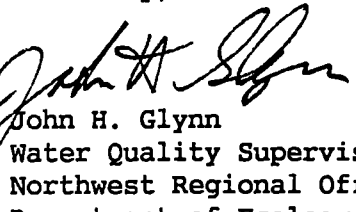

(Now WA0031305)

Dear Mr. Daley:

Based upon the fact that Seattle Steel, Inc. is no longer operating as a Steel Manufacturing facility at the 25th SW and SW Andover in Seattle, Washington, and is no longer discharging process wastewater into Elliott Bay, the Department of Ecology concludes that the Seattle Steel NPDES permit is no longer valid. Therefore, the NPDES Permit No. WA-000074-4 is hereby canceled. A new permit application must be submitted for any discharges from Seattle Steel property. This permit cancellation in no way relieves Seattle Steel from obligations associated with prior enforcement actions or stormwater requirements.

This letter constitutes final administrative disposition of the referenced permit.

Dear Mr. Kale:

Re: New NPDES Permit Number - WA-003130-5

This letter is to inform you of a new National Pollutant Discharge Elimination System (NPDES) permit number for Salmon Bay Steel Corporation, West Seattle facility. The old number, WA-000074-4, is no longer valid.

Your new NPDES Number is WA-003130-5. Ms. Pam Elardo has been assigned as the permit manager for this facility. She can be reached at (206) 649-7126.

Sincerely,

Carla J. Skog
Permit Coordinator
