**RE: Reapply for your Construction Stormwater General Permit – WAR308383**

Dear Duane Brelsford:

Your facility is covered under Ecology's Construction Stormwater General Permit (CSWGP), which will expire on December 31, 2025. The permit requires you to reapply for permit coverage at least 180 days prior to the expiration date of the current permit (General Condition G8). **You must reapply for the permit by July 3, 2025, to maintain your permit coverage beyond the expiration date.**

If you fail to reapply for the Construction Stormwater General Permit, your current permit coverage will terminate on December 31, 2025. If your permit is terminated and you discharge pollutants to state waters, you will violate the federal Clean Water Act and Chapter 90.48 of the Revised Code of Washington (RCW).

**To Reapply Online**

The Washington State Department of Ecology (Ecology) uses SecureAccess Washington (SAW) to maintain security of your data.
